

Jack Glass - Software Engineer

☎ (403) 993-4735 ✉ glassjack@proton.me 🐙 [github](#)

A passionate multi-language software engineer who enjoys progressive improvement of projects to build features of value with greater speed. I aim to bring my skills and experience to a company that values mentorship, continuous improvement, and technical progression.

Work Experience

Biggeo, Calgary AB - Platform Software Engineer

January 2025 - April 2026

- Implemented a high performance geospatial cloud using Rust, C++ and a bespoke DGGs
- Developed systems with DuckDB to perform analytical querying against terabytes of data in under 10s
- Manage development environments and deployments using Docker and Kubernetes
- Integrated AI into our development workflows through code review, agentic development, and MCP connections to our services

Lockheed Martin Canada Skunkworks, Calgary AB - Software Analyst

October 2022 - December 2024

- Redesigned one of the most struggled with systems at the office, the mission system, to be able to add 5 new major features such as relative waypoints in missions using C++ and Qt
- Ported existing build system to Bazel
- Celebrated as a passionate and personable coworker by my peers

Garmin Canada, Cochrane AB - Software Engineer

June 2021 - October 2022 & May 2019 - August 2020 (internship) & May 2018 - August 2018 (summer internship)

- Crafted a distributed computation framework which enabled system critical global site collaboration using Python and FastAPI
- Integrated layers of devops tooling to the projects which made contributions foolproof
- Refactored bluetooth stack to improve mobile connection reliability and data throughput up to 10x using C on a Nordic microcontroller
- Wrote a data analysis tool to enable data scientists to rapidly iterate using Python and Pandas
- Championed and practiced test driven development for all new software written at the office

Education

University of Calgary - Bachelor's Degree of Science in Software Engineering

September 2014 - 2021 Graduating with Distinction

Community

SDC Devlife

- Co-organizer with the [Calgary SDC group](#) ([April event](#) talked about software security)
- Monthly event focussed on developers discussing every day challenges and interests

Byte Club

- Weekly coding club focussed on learning, mentoring others and enjoying programming
